High Calorie/High Protein Beverages

The following recipes can be used to help add protein and calories to your diet to help you maintain or regain your weight and strength.

Substitute lactose-free milk, mocha mix, acidophilus milk, soy milk, almond milk, or rice milk for the milk in the following recipes if lactose intolerant.

Note: Calorie and protein values are approximate and vary slightly, depending on which liquid base you use. The lactose-free versions of the following shakes may provide fewer calories and protein.
