
Simply Thick® Mixing Instructions

Step 1: Determine if you are using a bottle & pump, individual packets, or bulk packets of Simply Thick®. Identify the liquid consistency that has been recommended for you. Dispense the Simply Thick® item into your beverage according to the charts listed below. The charts are separated by the type of Simply Thick® product.

Step 2: Stir Simply Thick® in liquid briskly for 30 seconds.

Step 3: Beverage is ready to serve immediately or can be stored for later use.

Tip: At the end of the day, gently wipe the pump nozzle with an alcohol wipe. This prevents a hard, dried drip from forming.

Bottle & Pump Simply Thick®:

Desired Consistency	Per 4 oz. 120ml/0.5 Cups	Per 8 oz. 240ml/ 1 Cup	Per 32 oz. 950 ml/ 4 Cups
Nectar (Level 2 Mildly Thick)	1 Stroke	2 Strokes	8 Strokes
